This lovely boy is very loving, enjoys people and would be great to take through a obedience/companion therapy course. He is one of those rare TP/RM parti lines that doesn't have RM Lil Bret in it! We've recently done a prelim hip on him and they've come back very good. He's expected to mature about 17" at the shoulder. He is a blue parti recessive for chocolate and has a 50% chance of also carrying the Cream-Caramel gene.
